BPH-20060109ACM

Dear Applicant:

The letter refers to: (1) the above-captioned application (BPH-20060130API) for an independent permit to modify antenna location, effective radiated power, and antenna height; and (2) the above captioned independent construction permit (BPH-20060109ACM) to modify antenna location and antenna height.¹

Pursuant to Section 73.3520 of the Commission's Rules,² where there is one application (or permit) for new or additional facilities pending, no other application for new or additional facilities for a station of the same class to serve the same community can be filed. Therefore, since KOB-FM has one independent construction permit with a current construction term, we will not accept the filing of another application for an independent construction permit during this term. Therefore, BPH-20061030API is in violation of Section 73.3520 and will be dismissed as unacceptable for filing.

In light of the above, application BPH-20061030API IS HEREBY DISMISSED. This action is taken pursuant to Section 0.283 of the Commission's Rules.³

Sincerely,

Rodolfo F. Bonacci
