Dear Applicant:

The staff has under consideration the above-captioned modification application for station WCMA(AM).

On February 3, 2009, the staff sent a deficiency letter requesting the proposed tower registration numbers be submitted within 30 days. As to this date, we have not received the requested information.

Accordingly, the application IS HEREBY DISMISSED as failure to prosecute. This action is taken pursuant to Section 0.283 of the Commission's Rules.¹

Sincerely,

Son Nguyen

¹ In the Public Notice entitled "Commission States Future Policy on Incomplete and Patently Defective AM and FM Construction Permit Applications", FCC 84-366, released August 2, 1984, the Commission indicated that it would reinstate applications nunc pro tunc where the original application was returned and where a relatively minor curative amendment was filed in conjunction with a petition for reconsideration within 30 days of the date of the dismissal. Any amendment filed later than 30 days will be returned as untimely. See 47 U.S.C. § 405, 47 CFR § 1.106(f). In this regard, it should be emphasized that the above deficiencies were discerned after a preliminary study of the application. A detailed review was not made of the entire application to determine whether other deficiencies exist which would preclude acceptance for filing or result in a subsequent dismissal. Inasmuch as the applicant will not be afforded a second opportunity to correct another deficiency, the applicant is encouraged to carefully review the entire application.
