WWDB(AM), Philadelphia, PA  
Facility Identification Number: 74085  
File Number. BL-20081017AHP

Dear Mr. Corbett:

This is in reference to the above-captioned license application filed by WWDB to cover Construction Permit BP-20080709ANZ to add one augmentation at 340°, and the April 3, 2009, amendment.

A preliminary review of the amended application reveals that the graphical analysis of the full directional and non-directional measurements on the 340° augmented radial were not submitted, in violation of Section 73.152 of the Commission's rules.

Accordingly, further action on the subject application will be withheld for thirty (30) days from the date of this letter to allow the licensee time to file a curative amendment. Failure to respond or file an amendment will result in the dismissal of the application pursuant to Section 73.3568 of the Commission's rules.

Sincerely,

Son Nguyen
