Re: WLBF(FM); Montgomery, AL
Facility ID No. 43643
Faith Broadcasting, Inc.
BMPED-20090413AAK

Dear Applicant:

This letter refers to the above-captioned application for a minor modification to a construction permit.

An engineering study of the application reveals that it is in violation of 47 C.F.R. § 73.509 with respect to: (1) the first-adjacent channel Class C2 construction permit (BPED-1998010MG) for WILF(FM), Monroeville, AL; (2) the first-adjacent Class A previously filed application (BNPED-20071019ARH) for NEW(FM), Kinston, AL; and (3) the first-adjacent channel Class C3 previously filed application (BNPED-20071022BQW) for NEW(FM), Gantt, AL. Specifically, the proposed interfering contour (54 dBu) would cause overlap with the above listed application's protected contours (60 dBu). This constitutes an acceptance defect.

In light of the above, Application BMPED-20090413AAK is unacceptable for filing pursuant to 47 C.F.R. § 73.3566(a) and is HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

Rodolfo F. Bonacci
Assistant Chief
