In re: W258BQ, Kendall, FL
Facility ID No. 139054
BPFT-20090601AXB

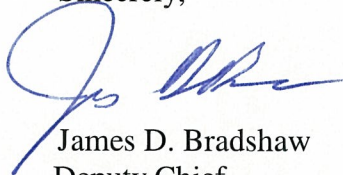

Dear Applicant:

This letter refers to the above-captioned minor change application for W258BQ, Kendall, FL.

An engineering study reveals that the application fails to comply with 47 C.F.R. § 74.1204(a) with respect to the licensed facilities of WEDR (BLH-20010628ABD), Miami, FL, and WKIS (BLH-19871216KH), Boca Raton, FL. Section 74.1204(a) states that an application for an FM translator station will not be accepted if the proposed operation would involve prohibited overlap of predicted field strength contours with any other authorized facility. Specifically, our calculations show that there is overlap between the proposed interfering contour (100 dBu) and the protected contours (60 dBu) of WEDR and WKIS respectively. These violations were not addressed in the application. Accordingly, the application fails to demonstrate compliance with 74.1204(a) and will be dismissed.

In light of the above, the application BPFT-20090601AXB is unacceptable for filing pursuant to 47 C.F.R. § 73.3566(a) and is **HEREBY DISMISSED**. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

James D. Bradshaw
Deputy Chief
