Re: Regents of the University of New Mexico
KRRT(FM), Arroyo Seco, New Mexico
Facility Identification Number: 94047
Special Temporary Authority

Dear Counsel:

This is in reference to the request filed December 30, 2008, on behalf of Regents of the University of New Mexico ("UNM"). UNM requests extension of the special temporary authority ("STA") granted on July 30, 2008, to operate Station KRRT with reduced power.¹ In support of the request, UNM states that the power reduction has been requested by the site manager, U.S. Forest Service, and that it is necessary to address interference issues. UNM further states that it is actively seeking a solution to the problem.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has been prevented from restoring licensed operation due to causes beyond its control and has taken all possible steps to expeditiously resolve the problem. Thus, extension of STA is warranted.

¹ KRRT is licensed for operation on Channel 215A (90.9 MHz) with effective radiated power of 6 kilowatts (Max-DA, H&V) and antenna height above average terrain of -200 meters.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station KRRT may continue to operate with reduced power. UNM must notify the Commission when licensed operation is restored. UNM must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **January 7, 2010**.

Sincerely,

A handwritten signature in blue ink that reads "Charles N. Miller". The signature is fluid and cursive, with the first name being the most prominent.
