Subject: Objection

Dick,

Per our discussion of earlier today, please forward the email below to Hossein (hossein.hashemzadeh@fcc.gov). Also, can you send me a copy of the email. Thank again.

All the best,

Larry

Hossein,

On July 9, 2009, Island Broadcasting filed an objection to the application of WASA-LD, Port Jervis, NY on the grounds that it would interfere with WNX-Y-LP. Venture Technologies Group subsequently requested that FCC staff include a condition on the WASA-LD that it use a full service adjacent channel mask filter. As such, it will not interfere with WNX-Y-LP. Therefore, if WASA-LD is granted with a requirement that it use a full service adjacent channel mask filter, I request that you dismiss my objection.

Thank you,

Dick Bogner
