**Re:** CMP KC Licensing, LLC  
KFNC(FM), Beaumont, Texas  
Facility Identification Number: 52407  
Special Temporary Authority

Dear Counsel:

This is in reference to the request filed April 7, 2009, on behalf of CMP KC Licensing, LLC ("CKL"). CKL requests extension of the special temporary authority ("STA") granted on October 7, 2008, to operate Station KFNC with temporary facilities.<sup>1</sup> In support of the request, CKL states that substantial progress has been made toward restoration of the licensed KFNC tower and antenna but that additional time is required for completion of the work.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has made substantial progress toward restoring licensed operation. Thus, extension of STA is warranted.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station KFNC may continue to operate with the following facilities:

---

<sup>1</sup> KFNC is licensed for operation on Channel 248C (97.5 MHz) with effective radiated power of 100 kilowatts (H&V) and antenna height above average terrain of 596 meters.

Geographic coordinates: 29° 56' 09" N, 94° 30' 39" W (NAD 1927)  
Channel 248 (97.5 MHz)  
Effective radiated power: Not to exceed 8 kilowatts (H&V)  
Antenna height:  
    above ground: 552 meters  
    above mean sea level: 564 meters  
    Above average terrain: 555 meters

Simultaneous operation of Stations KHJK and KFNC with the foregoing antenna is not authorized. CKL must notify the Commission when licensed operation is restored. CKL must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **January 30, 2010**.

Sincerely,

Charles N. Miller, Engineer
