Dear Permittee,

This is with respect to the above-referenced application for modification of low power television station KBND-LP. Commission records show that the underlying construction permit for KBND-LP expired on October 17, 2004. Commission's rules provide that "the filing of an application for modification of construction permit does not extend the expiration date of the construction permit."

Accordingly, the construction permit for station KBND-LP having expired, the above-referenced application IS DISMISSED.

Sincerely,

Hossein Hashemzadeh  
Assistant Chief, Video Division  
Media Bureau
