File No. BPL-20090819AHD

Dear Applicant:

This letter refers to the above-captioned application for a minor change to a licensed facility.

An engineering study has revealed that the proposed transmitter site specified in the application fails to meet the minimum spacing requirements of Section 73.807 of the Commission's Rules¹ in relation to third-adjacent channel translator application, BNPFT-20030317ARB, Atwood, KY. The required separation is 14 kilometers, whereas the separation proposed is 10 kilometers.

Accordingly, in light of the above, application BPL-20090819AHD is unacceptable for filing and IS HEREBY DISMISSED. This action is taken pursuant to Section 0.283 of the Commission's Rules.²

Sincerely,

Rodolfo F. Bonacci
