BMPED-20090814AAV

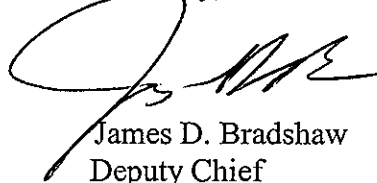

Dear Applicant:

This refers to the above-captioned minor change application to modify the antenna pattern and location.

An engineering review of the application reveals that the application fails to comply with 47 C.F.R. § 73.525 with respect to TV Channel Six Station WEDY-DT, New Haven, CT. Specifically, our calculations show that there is an increase in the predicted interference to WEDY-DT. Furthermore, WESU failed to provide the existing and proposed interference area and the population in that area. This constitutes an acceptance defect.

In light of the above, application BMPED-20090814AAV is unacceptable for filing pursuant to 47 C.F.R. § 73.3566(a) and is HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

James D. Bradshaw
