Subject: WPBM-LP, Scottsville, KY; File No. BDISDTA-20090820ABK

In response to your identification of the interference problem between the proposed channel, Channel 28, and WKRN-DT, Nashville (Channel 27), we have filed – earlier this afternoon – a new displacement application on Channel 46. The changes, other than the channel number, are negligible: transmitter output power is now 1050 watts, ERP remains 15 kW.

Please consider this an amendment to the pending STA request (File No. BLSTA-20090820ABS) to specify the new channel and the new transmitter output power.

Also, please dismiss File No. BDISDTA-20090820ABK.

If you need anything else from me, please let me know.
