In re: Low Power Television Application of:
Center Broadcasting Corp. of NH
Channel 13, Nashua, NH
File number BPTVA-20090528ACR
Facility Id No.: 9766

Dear Applicant:

On August 4, 2009, the licensee as addressed above was sent a 30 day deficiency letter for the following issue:

Our preliminary engineering review reveals that your proposed facility does not comply with the Commission's interference rules. Specifically, the proposal is predicted to cause interference to the following facilities:

1. WPRI-TV, Providence, RI. – BPCDT-20080619AHJ & BLCDT-20040526ALH

The licensee was given the opportunity to file a minor amendment to resolve the specified interference problems within (30) days from the date of that letter. Amendments must be filed electronically. If not so amended, your application will be considered incomplete and subsequently dismissed.

Our records indicate that an amendment was filed on August 14, 2009, in response to the above 30 day letter. Our preliminary engineering review, with the specifications of the August 14, 2009, amendment, reveals that the proposed facility still does not comply with the Commission's interference rules. Specifically, the amendment did not resolve the above referenced interference issue that is predicted to be caused to station WPRI-TV; therefore, the above referenced application is considered incomplete and IS HEREBY DISMISSED.

Sincerely

Hossein Hashemzadeh
Associate Chief
Video Division
Media Bureau
