In re: K241BK, South Lake Tahoe, CA  
BPFT-20090918AAB  
Facility ID # 146398

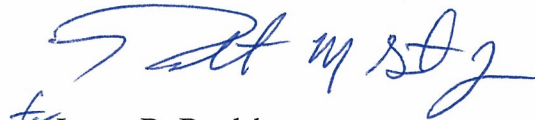

Dear Applicant:

This refers to the above-captioned application for K241BK, South Lake Tahoe, California.

An engineering study of the application reveals that it is in violation of 47 C.F.R. § 74.1235 (b)(1) since the application proposes a maximum effective radiated power ("ERP") of 40 watts. Section 74.1235(b)(1) states that the maximum allowable effective radiated power with an antenna height above average terrain (HAAT) above 141 meters is 10 watts. Our study reveals that the azimuth at 90° has a HAAT of 303.1 meters and an ERP of 40 watts. The application failed to discuss this violation. Therefore, we will dismiss the application.

In light of the above, Application BPFT-20090918AAB is unacceptable for filing pursuant to 47 C.F.R. § 73.3566(a) and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

James D. Bradshaw  
Deputy Chief  
Audio Division  
Media Bureau
