Re: Family Life Broadcasting, Inc.
KAMY(FM), Lubbock, Texas
Facility Identification Number: 39890
Special Temporary Authority

Dear Counsel:

This is in reference to the request filed October 8, 2009, on behalf of Family Life Broadcasting, Inc. ("FLB"). FLB requests extension of the special temporary authority ("STA") granted on June 4, 2009, to operate Station KAMY with reduced power.¹ In support of the request, FLB states that structural work continues on the station's antenna supporting tower. FLB further states that it has been advised that the work will continue through December, 2009.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has been prevented from restoring licensed operation due to causes beyond its control and has taken all possible steps to expeditiously resolve the problem. Thus, extension of STA is warranted.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station KAMY may continue to operate with reduced power. FLB must notify the Commission when licensed

¹ KAMY is licensed for operation on Channel 211C1 (90.1 MHz) with effective radiated power of 63 kilowatts (H&V) and antenna height above average terrain of 147 meters.

operation is restored. FLB must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

This authority expires on **April 9, 2010**.

Sincerely,

A handwritten signature in blue ink, appearing to read "Charles N. Miller". The signature is fluid and cursive, with a long horizontal stroke at the end.
