File no.: BMPDTt-20091022ACQ  
Facility Id No.:168682

Dear Applicant:

We are currently processing your above-referenced application. Our preliminary engineering review reveals that your proposed facility is for digital channel 19 and the exiting construction permit that the proposed modification was filed to change BDCCDTT-20061030APA is for digital channel 14.

A digital channel change can not be filed as a modification change to an existing digital construction permit and based on the explanation in your exhibit, you can file a digital flash cut application for the analog facilities; therefore, the above referenced modification construction permit IS HEREBY DISMISSED.

Sincerely

Hossein Hashemzadeh
