Dear Applicant:

An engineering study of the above-captioned minor change application reveals that the proposed transmitter site fails to meet the minimum spacing requirements of 47 C.F.R. § 73.807. Specifically, the site proposed is 106 kilometers from the construction permit of co-channel Class C1 Station, WJBT(FM), Callahan, FL (BPH-20081015ABN). The required spacing pursuant to § 73.807 is 111 kilometers.¹

In light of the above, application BPL-20091112ANB is unacceptable for filing and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

Edna V. Prado

¹ WMJB-LP's application proposes to change operation from channel 299 to channel 227. However, the channel change will create a new short-spacing to WJBT.
