In re: 1TV.Com, Inc.  
KIKO(AM), Miami, Arizona  
Facility Identification Number: 72477  
Request for Special Field Test Authority

Dear Counsel:

This is in reference to the request filed December 8, 2009, on behalf of 1TV.Com, Inc. ("1TV"), licensee of station KIKO(AM).<sup>1</sup> 1TV requests special field test authority ("SFTA"), pursuant to 47 CFR §73.1515, for operation of a test transmitter on 1700 kHz. In support of the request, 1TV states that the proposed field strength measurements are necessary to determine the soil conductivity at a proposed daytime site for Station KIKO.

Our review confirms that no interference to any other station is likely and that the Public Interest would be served by grant of the requested SFTA.

Accordingly, the request for special field test authority IS HEREBY GRANTED. Call sign KI5XKO is assigned to the proposed test station. Station KI5XKO may operate, daytime non-critical hours only, with the following facilities:

Frequency:	1700 kHz
Hours of operation:	Non-critical daytime hours only
Transmitter site:	0.25 km NW of Apache Trail, approx. 8.6 km NE of Apache Junction, Arizona.
Geographic coordinates:	33° 28' 06" N, 111° 28' 53" W (NAD 1927)
Operating power:	Not to exceed 1 kilowatt
Antenna type:	Temporary tower, nondirectional
Radiator height:	62.3° (30.5 m)
Overall height:	30.5 meters (100')
Ground system	120 radials, each 44 m in length
Efficiency	288 mV/m/km/kW

---

<sup>1</sup> KIKO is licensed for operation on 1340 kHz with 1 kW, unlimited hours, employing a nondirectional antenna (ND-1-U).

Transmissions shall consist of unmodulated carrier plus hourly station identification announcements. A report detailing the methodology employed and the results obtained must be submitted within sixty days following the conclusion of the experimental operation pursuant to 47 C.F.R. § 73.1515(c)(7). It will be necessary to reduce power or cease operation if complaints of interference are received. It will be necessary to reduce power or cease operation to protect persons having access to the site from radio frequency radiation in excess of FCC guidelines.

This special field test authority expires **March 16, 2010**.

Sincerely,

A handwritten signature in blue ink, appearing to read "Charles N. Miller".

Charles N. Miller, Engineer
