In re: WPSR(FM), Evansville, IN
Evansville-Vanderburgh School Corp.
Facility ID No.: 20032
BPED-20060606AGM

Dear Mr. Reininga:

This letter refers to the above-captioned non-commercial educational FM minor change application. The application was amended on October 18, 2006 and November 18, 2009. The November 18, 2009 amendment corrects the coordinates and the antenna height. Petitions to Deny ("Petitions") the application were filed on July 10, 2006 and September 26, 2006 by Indiana Community Radio Corporation ("Petitioner").

Both Petitions object to the application as originally filed on June 6, 2006. The Petition filed July 10, 2006 states that the proposed (and licensed) coordinates are not accurate and that the radiofrequency radiation may exceed the FCC's limits. In addition, this Petition states that the effective radiated power and transmitter power output are not accurate. Finally, the Petition states that the application was not signed by the licensee. The Petition filed September 26, 2006 reiterates the same objections stated in the July 10, 2006 Petition. As stated above, the application was amended on October 18, 2006 and November 18, 2009, after the Petitions were filed. Our study shows that the application, as amended, addresses the Petitioner's concerns and is now acceptable and grantable.

Accordingly, the Petitions to Deny filed on July 10, 2006 and September 26, 2006 by Indiana Community Radio Corporation ARE HEREBY DISMISSED as moot. Finally, Application File No. BPED-20060606AGM, as amended last on November 18, 2009, IS HEREBY GRANTED. These actions are taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

Arthur E. Doak
