Re: Board of Regents, Southeast Missouri State University
KSEF(FM), Farmington, Missouri
Facility Identification Number: 90232
Special Temporary Authority

Dear Counsel:

This is in reference to the request filed December 21, 2009, on behalf of Board of Regents, Southeast Missouri State University ("SMSU"). SMSU requests further extension of the special temporary authority ("STA") granted on January 28, 2009, and modified on July 10, 2009, to operate Station KSEF with emergency antenna facilities pursuant to Section 73.1680.¹ In support of the request, SMSU states that it continues to work toward restoration of licensed operation.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has made progress toward restoration of licensed operation, but additional time is required for completing the work. Thus, extension of STA is warranted.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station KSEF may

¹ KSEF is licensed for operation on Channel 205C2 (88.9 MHz) with effective radiated power of 9.5 kilowatts (Max-DA, H&V) and antenna height above average terrain of 205 meters.

continue to operate with the following facilities:

Geographic coordinates:	37° 47' 51" N, 90° 33' 38" W (NAD 1927)
Channel	205 (88.9 MHz)
Effective radiated power:	1.2 kilowatt (Max-DA, H&V)
Antenna manufacturer and type	Composite; three Scala, CA5-FM/CP
Antenna orientation:	185°, 240° and 355°
Antenna height:	
above ground:	42 meters
above mean sea level:	495 meters
Above average terrain:	205 meters

SMSU must notify the Commission when licensed operation is restored. SMSU must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **June 23, 2010**.

Sincerely,

A handwritten signature in blue ink, appearing to read "Charles N. Miller", with a long horizontal flourish extending to the right.
