In re: KCPB-FM, Warrenton, OR  
Tillicum Foundation  
Facility ID # 93685  
BMPED-20060302ACU

Dear Applicant:

This refers to the above-captioned minor change application to modify the effective radiated power and antenna height.

An engineering study of KCPB's application has revealed that the proposed facility fails to provide adequate community coverage as required by 47 C.F.R. § 73.515. Specifically, the proposed 60 dBu contour fails to cover at least 50 percent of the community of license, Warrenton, Oregon. Although MM Docket No. 95-31 waived § 73.515 to resolve the mutual exclusivity between closed MX group applications, it does not automatically extend to any further modification application.

Accordingly, pursuant to 47 C.F.R. § 73.3566, Application File No.: BMPED-20060302ACU IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

Rodolfo F. Bonacci  
Assistant Chief
