In re: Indiana Community Radio Corporation  
WJCF-FM, Morristown, IN  
Facility I.D. No.: 91193  
BPED-20090107AIS

Dear Applicant:

This refers to the above-captioned application for changes to the noncommercial educational FM broadcast facility WJCF-FM.

An engineering study of the application reveals that it is in violation of 47 C.F.R. § 73.509 of the Commission's Rules, with respect to license (BLED-20020830AAK) for WKRY(FM), Versailles, Indiana. Specifically, the application's interfering contour (40 dBu) causes overlap to the licensed protected contour (60 dBu) of WKRY(FM), by approximately 1 kilometer, along the applicant's 165 degree azimuth bearing.<sup>1</sup> This constitutes an acceptance defect.<sup>2</sup>

In light of the above, application BPED-20090107AIS is unacceptable for filing, pursuant to 47 C.F.R. § 73.3566(a) and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

Rodolfo F. Bonacci  
Assistant Chief  
Audio Division  
Media Bureau

cc: Martin Hensley

---

<sup>1</sup> The application's exhibit of WKRY(FM) shows no contour overlap. The application did not provide contour tabulations that demonstrate lack of overlap.

<sup>2</sup> The application requested contour protection pursuant to Section 73.215 of the Commission's Rules, which is applicable only to noncommercial educational stations operating on channels 218 through 220.
