File No. BMPL-20100205ABP

Dear Applicant:

This letter refers to the above-captioned application for a minor change to a licensed facility.

An engineering study has revealed that the proposed transmitter site specified in the application fails to meet the minimum spacing requirements of 47 C.F.R. § 73.807 in relation to first-adjacent channel license, BLH-6405, for station WKID(FM), Vevay, IN. The required separation is 56 kilometers, whereas the separation proposed is 54 kilometers. Also, the application fails to meet the minimum spacing requirements of 47 C.F.R. § 73.807 in relation to second-adjacent channel translator application, BNPFT-20030317FFF, in Covington, KY. The required separation is 14 kilometers, whereas the separation proposed is 11 kilometers.

Accordingly, in light of the above, application BMPL-20100129AEH is unacceptable for filing and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

Edna V. Prado
