Special Temporary Authorization

Dear Rev. Correa:

This is in reference to the request filed February 23, 2010, on behalf of Centro Colegial Cristiano, Inc. ("CCC"). CCC requests extension of the special temporary authority ("STA") granted on May 21, 2009, to operate Station WVID with reduced power.¹

We note that the previous STA expired on November 21, 2009. Our review indicates that the circumstances presented warrant grant of STA in order to provide for service to the public, and that the requested STA facilities are the same as were previously authorized. However, in light of the lapse of time between the expiration of the prior STA and the filing of the instant request, it will be considered as a request for a new STA; the authority granted will not cover the period between the expiration of the prior STA and the filing of the instant request.

Accordingly, the request for STA IS HEREBY GRANTED. Station WVID may operate with reduced power. CCC must notify the Commission when licensed operation is restored. CCC must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310. The authority granted herein does not cover the period between November 21, 2009, and February 23, 2010, and is without prejudice as to whatever action the Commission may take with

¹ WVID is licensed for operation on Channel 212B (90.3 MHz) with effective radiated power of 14.5 kilowatts (H&V) and antenna height above average terrain of 304 meters.

respect to operation of Station WVID during the foregoing period.

This authority expires on **August 25, 2010**.

Sincerely,
