Dear Applicant:

We are currently processing your above-referenced application. Our preliminary engineering review reveals a discrepancy with the towers overall height above ground level based on the ASRN number provided in the proposed construction permit (1020782) as follows:

The overall height above ground level as indicated in the proposed construction permit is 155.0 meters

Specified Search							
Registration Number like 1020782							
	Registration Number	Status	File Number	Owner Name	Latitude/Longitude	Structure City/State	Overall Height Above Ground (AGL)
1	1020782	Constructed	A0640879	American Towers, Inc.	26-47-59.7N 080-04-31.7W	W. PALM BEACH, FL	153.0

The difference in the tower height proposes a 2.0 meter tower height increase which will require approval and re-registration with the FAA.

You are hereby given the opportunity to file a minor amendment to resolve the specified tower height issue within (30) days from the date of this letter. Amendments must be filed electronically. If not so amended, your application will be considered incomplete and subsequently dismissed.

Sincerely
