Re: Facility ID: 62354  
HARLINGEN, TX  
BDRTCDDT-20100427ABC

Dear Applicant:

We are currently processing your above-referenced application. Our preliminary engineering review reveals that your proposed facility does not comply with the Commission's rules for Construction Permit applications.

The antenna location site elevation above mean sea level listed in the application is 18.9 meters and the overall structure height above ground is 306.3 meters, but the elevation of site above mean sea level for ASRN 1050199 in the ASR database is 12.8 meters and the overall structure height above ground is 149.6 meters. These values must be consistent for grant.

You are hereby given the opportunity to file a minor amendment to resolve these specified problems within (30) days from the date of this letter. Your amendment must be filed electronically. If not so amended, your application will be considered incomplete and subsequently dismissed.

Sincerely

Hossein Hashemzadeh  
Associate Chief  
Video Division  
Media Bureau
