Re: KBSG-LP, Fall City, WA  
Facility ID No. 134276  
Snoqualmie Educational Radio Project  
File No. BPL-20100427AEC

Dear Applicant:

This letter refers to the above-captioned application for a minor change to a licensed facility.

An engineering study has revealed that the proposed transmitter site specified in the application fails to meet the minimum spacing requirements of 47 C.F.R. § 73.807 in relation to the intermediate frequency (I.F.) channel license, BLH-20001023AEZ, for station KMPS-FM, Seattle, WA. The required separation is 28 kilometers, whereas the separation proposed is 12 kilometers.<sup>1</sup>

Accordingly, in light of the above, application BPL-20100427AEC is unacceptable for filing and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

Edna V. Prado  
Supervisory Engineer  
Audio Division  
Media Bureau

cc: Guy Betten

---

<sup>1</sup> Also, the application fails to meet the minimum spacing requirements of 47 C.F.R. § 73.807 in relation to second-adjacent channel stations KMCQ(FM) and KCMS(FM). A request for waiver was included, but cannot be considered due to the I.F. spacing violation with station KMPS-FM
