In re: Mortenson, Broadcasting Co. of West Virginia
WRWB(AM), Huntington, West Virginia
Facility Identification Number: 61277
BMJP-20051031AFF (Construction Permit)

Dear Counsel:

This is in reference to: 1) the above-captioned construction permit for station WRWB(AM), Huntington, West Virginia, granted on October 25, 2007; and 2) the October 31, 2007, Request for Further Relief ("Request") filed by Fifth Avenue Broadcasting Company, Inc. ("FABC"), licensee of radio station WRVC(AM), Huntington, West Virginia. In the Request FABC requests that the same protective condition on WRWB(AM) license authorization to be imposed on the construction permit BMJP-20051031AFF to protect the operation of WRVC(AM) due to negative effects of excessive radiation from the WRWB(AM) directional antenna system.

According to our records, the most recent WRWB(AM) license authorization BL-20030505ACH is conditioned to protect station WRVC(AM).¹ By conditioning that license, we recognized this is an on-going problem and the same condition will be continued to be placed on any future WRWB(AM) authorization.

Accordingly, pursuant to Section 0.283 of the Commission's rules, the October 31, 2007

¹ Licensee shall assume responsibility for the installation and adjustment of suitable filter circuits or other equipment that may be necessary to prevent excessive external or internal cross modulation with station WRVC, 930 kHz, Huntington, West Virginia, ID# 21435.

Request for Further Relief filed by FABC is GRANTED, and Construction Permit BMJP-20051031AFF is superseded to add the condition given in footnote 1.

Sincerely,

A handwritten signature in blue ink, appearing to read "Son Nguyen", is positioned above the typed name.
