Subject: K45EI Bentonville, AR

The applicant is requesting an extension of the STA while a new displacement application is being processed.

The original displacement application was filed on the wrong FCC Form 346.

This is a Class A station and the displacement application has been refiled on the correct FCC Form 301-CA. The applicant needs the STA extension to continue to operate on the new displaced channel to continue to serve the public of Bentonville and Rogers, AR.
