Hi Melvin,

Please dismiss 20100112ADQ and 20100113AAN and grant the companion channels. We need to move off low band VHF.

Thanks a lot,

Dan

The station associated with the above subject application already has a flash cut permit. A station can not have both a flash cut and a companion channel. If they want this companion channel application we will cancel the flash cut permit. If they want to keep the flash cut permit we will dismiss the companion channel application. Please let me know their choice. Melvin
