Re: Digital Operation Notifications

Dear Ms. Dortch:

Transmitted herewith on behalf of Journal Broadcast Corporation (“*Journal*”), licensee of stations KFAQ(AM), Fac. ID No. 68329, Tulsa, Oklahoma; KVOO-FM, Fac. ID No. 68330, Tulsa, Oklahoma; and KXBL(FM), Fac. ID No. 68331, Henryetta, Oklahoma (collectively, the “*Stations*”), are copies of letters notifying the Commission of the commencement of digital operation by the Stations.

Journal is unable to confirm that notifications were previously filed on behalf of the Stations. Therefore, out of an abundance of caution, the attached notices are being filed.

In the event that notifications were not filed for the Stations in a timely manner, a waiver of that notification deadline is hereby requested.

Please date-stamp the enclosed “Return Copy” of this notification and return it to the courier delivering the package.

Should there be any questions regarding this matter, please contact the undersigned.

Respectfully submitted,

A handwritten signature in black ink that reads 'John W. Bagwell'.

John W. Bagwell

Re: KFAQ(AM), Tulsa, OK
Facility Identification Number: 68329
Notification of Digital Operation

Dear Ms. Dortch:

Journal Broadcast Corporation hereby notifies the Commission of the commencement of digital broadcasting by KFAQ using iBiquity Digital Corporation's HD Radio technology. Journal Broadcast Corporation hereby supplies the following information in support of this notification:

1. Journal Broadcast Corporation commenced digital broadcasting on May 28, 2008.
2. Journal Broadcast Corporation hereby certifies its facilities conform to the iBiquity Digital Corporation specifications for hybrid digital operation by AM stations. The primary digital carrier power has been reduced by 2 dB from the maximum level specified in the iBiquity standard to minimize self interference problems.
3. In the event of interference, questions should be directed to Journal Broadcast Corporation's technical representative:
Jim Hobbs, (918) 743-7814
4. Journal Broadcast Corporation hereby certifies its analog transmitter output power remains at the authorized values of 50 kilowatts day and 52.65 kilowatts night after commencement of digital operations.
5. Journal Broadcast Corporation hereby certifies that its digital operations will not cause human exposure to levels of radio frequency radiation in excess of the levels specified in Section 1.1310 of the Commission's rules and is therefore categorically excluded from environmental processing pursuant to Section 1.1306(b) of the FCC Rules.

Any questions concerning this notification should be directed to the undersigned.

Randy Bush 7/6/10

Randy Bush, Vice President and General Manager
Journal Broadcast Corporation, Tulsa
