Subject: RE: KNAV-LP

Melvin: The client wants to proceed with the displacement application on Channel 29 (BDISDTL-20090619ACW). We will dismiss the flash-cut application, and, if it is OK, will turn the digital companion construction permit in for cancellation at the time we receive word that the displacement application can be granted. Hi Lee, the subject station has a pending flashcut and a displacement application. They also have a granted companion channel permit. They can only have one of these three. Please let me know which one they want and I will dismiss and/or cancel the others. Thanks
