Dear Applicant:

This refers to your above-captioned application for a construction permit authorization in the low power television service.

Because your proposed transmitter site is in close proximity to the Mexican border, coordination with the Government of Mexico was mandatory as prescribed by the Mexican USA Television Agreement. As a result of this coordination, the Mexican Department of Communications has informed the Commission that it would object to the grant of your proposed facility, because it does not comply with the distance required for protection of channel 41, Sonoita, Son.

Consequently, your application can not be granted and is HEREBY DISMISSED.

Sincerely,

Hossein Hashemzadeh  
Associate Chief  
Video Division
