Re: WGDJ (AM), Lares, PR
Facility Identification Number: 36564
Lares Broadcasting Corporation
Special Temporary Authority

Dear Counsel:

This is in reference to the request filed July 16, 2010, on behalf of Lares Broadcasting Corporation (LBC). LBC requests reinstatement and further extension of the special temporary authority (STA) originally granted November 22, 1991, for operation of Station WGDJ with power of 1.0 kilowatt, nondirectional, unlimited hours, as specified in pending application BP-900326AD.

In support of the request, LBC states that The Dominican Republic (DR) authorized AM Station HIBS, San Pedro de Marcois, to change frequency from 1200 kHz to 670 kHz, and that, on learning of the DR's action, it filed an application for a construction permit to operate with 1 kilowatt nondirectionally day and night, since HIBS was no longer a limitation to such operation. LBC further states that it was informed by the Commission that it would withhold action on the application pending IFRB recognition of the frequency change that the Dominican Republic government authorized for HIBS.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station WGDJ may continue to operate with the parameters specified in Application BP-900326AD. This authority is granted on the condition that, if the IFRB orders Station HIBS to return to 1200 kHz, Application BP-900326AD will be dismissed, this STA will be immediately cancelled, and WGDJ must immediately return to licensed operating parameters. This authority does not cover the period between November 26, 2009, and January 13, 2010, and is without prejudice as to whatever action the Commission may take with regard to operation of Station WGDJ during the foregoing interval.

This authority expires on **February 12, 2011**.

Sincerely,

Charles N. Miller, Engineer
