Subject: Withdrawal request

This morning I filed an STA extension request for facility ID 13072, K26IB, to keep it operational and serving the Juneau community. It was assigned File No. BESTA-20100812AAA. It should have been filed as a new STA under facility ID 184425, also for channel 26. Facility ID 184426 represents a new CP application for the same facilities and station, and the new STA is to keep the station on the air providing service to the public. So instead of an extension of STA for the old facility ID we are applying for a new STA under the new facility ID. The fee was paid for the first application.

The replacement new STA has now been filed, BSTA-20100812AAZ. No new fee should be required.

Please withdraw BESTA-20100812AAA.

Thank you.
