File No. BPL-20100706AXX

Dear Applicant:

This letter refers to the above-captioned application for a minor change to a licensed facility.

An engineering study has revealed that the proposed transmitter site specified in the application fails to meet the minimum spacing requirements of 47 C.F.R. § 73.807 in relation to first-adjacent channel license, BLH-20040309ACV, for station KHTN(FM), Planada, CA. The required separation is 97 kilometers, whereas the separation proposed is 96 kilometers.

Accordingly, in light of the above, application BPL-20100706AXX is unacceptable for filing and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

Edna V. Prado
