In re: Low Power Television Application of:
Hispanic Christian Community
Network, Inc.
Channel 10, Topeka, KS.
File No.: BMPTVL-20100607AAP
Facility Id No.: 130417

Dear Applicant:

On July 8, 2010, the licensee as addressed above was sent a 30 day deficiency letter outlining the following issue:

Our preliminary engineering review reveals that the proposed facility protected contour does not overlap with the protected contour of the licensed facility file number BLTVL-20080826ADE. The contours as referenced above must overlap in order for the proposed modification to be considered as a Minor Change.

You were given the opportunity to file a minor amendment to resolve the specified protected contour problem within (30) days from the date of this letter. Amendments must be filed electronically. If not so amended, your application will be considered incomplete and subsequently dismissed.

Our records indicate that an amendment was filed on August 12, 2010, specifically to resolve the above referenced issue. Our current engineering analysis shows that with the amended specifications considered the contours of the proposed facility still do not overlap with the protected contours of the licensed facility file number BLTVL-20080826ADE; therefore as a result the above referenced application is considered incomplete and IS HEREBY DISMISSED.

Sincerely

Hossein Hashemzadeh
Associate Chief
