Dear Applicant:

On May 7, 2010, the licensee as addressed above was sent a 30 day deficiency letter outlining the following problems:

Our preliminary engineering review reveals that your proposed facility does not comply with the Commission's interference rules. Specifically, the proposal is predicted to cause interference to the following facilities:

CHANNEL 19 KTVD DENVER CO BLCDT-20090218ABY
CHANNEL 21 KFCT FORT COLLINS CO BMPCDT-20080620ANE
CHANNEL 21 KFCT FORT COLLINS CO BLCDT-20070920ACM

You were given the opportunity to file a minor amendment to resolve these specified problems within (30) days from the date of that letter. Your amendment must be filed electronically. If not so amended, your application will be considered incomplete and subsequently dismissed.

Our records show that no amendment has been filed to resolve the above mentioned interference problems. Our current engineering analysis shows that the interference issues as referenced above still exist; therefore, the above referenced displacement application is considered incomplete and **IS HEREBY DISMISSED.**

Sincerely
