In re: Low Power Television Application of:
ABACUS TELEVISION
WPTG-LP PITTSBURGH, PA
BDISDTL-20091019AAJ
Facility Id No.: 272

Dear Applicant:

On March 15, 2010, the licensee as addressed above was sent a 30 day deficiency letter outlining the following issues:

Our preliminary engineering review reveals that your proposed facility does not comply with the Commission's interference rules. Specifically, the proposal is predicted to cause interference to the following facilities:

CHANNEL 33 WNPB-TV MORGANTOWN WV BLEDT-20040108AKW
CHANNEL 33 WNPB-TV MORGANTOWN WV BMPEDT-20080619ACQ

Additionally, the Antenna Location Site Elevation Above Mean Sea Level entered in the application for antenna ASRN 1022324 does not match the Elevation of Site Above Mean Sea Level for that antenna in the ASR Database.

You were given the opportunity to file a minor amendment to resolve these specified problems within (30) days from the date of this letter. Your amendment must be filed electronically. If not so amended, your application will be subject to auction processes through the Commission.

Our records show that no amendment has been filed as of

September 16, 2010, to resolve the above mentioned problems. Our current engineering analysis shows that the deficiencies as addressed above still exist; therefore, the above referenced displacement application is considered incomplete and **IS HEREBY DISMISSED.**

Sincerely,

Hossein Hashemzadeh
