In re: Low Power Television Application of:
Budd Broadcasting Co., Inc.
Channel 40, Nashville, TN.
File number BPTTL-20100915ACD
Facility Id No.: 128934

Dear Applicant:

We are currently processing your above-referenced application. Our preliminary engineering review reveals that your proposed facility is an analog minor change for channel 40 filed against analog license BLTTL-20051216AAJ for channel 60. You can not file a minor change application to change the channel. For this facility you currently have a granted digital displacement application BDISDTL-20090908AET for channel 40. If you wish to change the granted displacement construction permit you must file a digital modification to that specific application.

Secondly, you can not file a license application on facility 168487 and reference that it is to cover a construction permit on facility 128934 or you can not file a minor change on facility 128934 and reference that it is a change to the pending license on facility 168487.

As a result of the above incorrect filings, the above referenced application **IS HEREBY DISMISSED.**

And the license amendment to the license application for station WKUW-LD Facility 168487 **IS HEREBY DENIED** and the License application for facility 168487 BLDTL-20100826ADF **IS HEREBY DISMISSED.**

Sincerely

Hossein Hashemzadeh
