Re: University of Tulsa  
KWGS(FM), Tulsa, Oklahoma  
Facility Identification Number: 66586  
Special Temporary Authority

Dear Counsel:

This is in reference to the request filed September 9, 2010, on behalf of University of Tulsa ("UT"). UT requests further extension of the special temporary authority ("STA") granted on March 17, 2010, to operate Station KWGS with reduced power.<sup>1</sup> In support of the request, UT states that replacement of the station's damaged antenna has been delayed.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has been prevented from restoring licensed operation due to causes beyond its control and has taken all possible steps to expeditiously resolve the problem. Thus, extension of STA is warranted.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station KWGS may

---

<sup>1</sup> KWGS is licensed for operation on Channel 208C1 (89.5 MHz) with effective radiated power of 50 kilowatts (H&V) and antenna height above average terrain of 325 meters.

continue to operate with reduced power. UT must notify the Commission when licensed operation is restored. UT must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **December 29, 2010**.

Sincerely,

A handwritten signature in blue ink, appearing to read "Charles N. Miller". The signature is fluid and cursive, with the first name "Charles" being the most prominent.
