Program Test Authority

Dear Applicant:

This letter is in reference to KIYS's request for program test authority ("PTA") filed September 16, 2010, and the above-captioned application for license to cover Construction Permit BPH-20090401AQV. The PTA application included exhibits demonstrating compliance with the special operating conditions regarding the directional antenna.

A review of KIYS's request for program test authority reveals that the facilities were constructed pursuant to the terms and conditions of Construction Permit BPH-20090401AQV, and the provisions of 47 C.F.R. § 73.1620. Accordingly, Program Test Authority IS HEREBY GRANTED to commence operation pending further action on KIYS's license application. The effective radiated power is 10.5 kilowatts (H&V) and the transmitter power output is 4.9 kilowatts.

Sincerely,

Rodolfo F. Bonacci
