**Re: Request for Further Extension of Time to Amend License Application
KLKI(FM), Dolan Springs, Arizona (FIN: 90917)**

Dear Ms. Dortch:

On behalf of Educational Media Foundation ("EMF"), permittee of KLKI(FM), Dolan Springs, Arizona, this letter is to request a further extension of time to amend the pending KLKI(FM) license application. See FCC File No. BLED-20100125ADU.

On January 25, 2010, EMF filed the KLKI(FM) covering license application and concurrently requested PTA. On January 29, 2010, the Commission denied EMF's request for PTA, File No. 20100125AIO, due to the potential for human exposure to radiofrequency radiation ("RFR") in excess of applicable safety standards. By its letter, the Commission requested that EMF provide an amendment to the license application, within 30 days, to provide documentation of compliance with the Special Operating Conditions in the construction permit related to RFR compliance. See BMPED-20100104AAJ. EMF requested and the Commission granted an extension of time to amend on March 1, 2010 and June 1, 2010, and the Commission's most recent extension extends through July 31, 2010. Since June 1, EMF received the approvals necessary to move the station antenna to a location on the tower that will eliminate the aforementioned RFR issues. However, the earliest EMF could coordinate the move is early August. Accordingly, EMF hereby requests an extension of time, up to and including August 31, 2010, within which to amend the KLKI(FM) license application. In the interim, KLKI(FM) will continue to operate at approximately 60% of its authorized power, as authorized by the FCC in its March 1, 2010 letter.

Grant of program test authority at reduced power is in the public interest, as it will allow for the continuation of service to the public and enable the community of Dolan Springs, Arizona to receive the noncommercial, educational programming broadcast over KLKI(FM).
