Re: K28IE, Barstow, CA
File No. BDISDVL-20090930AOB
Facility ID No. 130067

Dear Licensee:

This is with regard to the above-captioned application filed on your behalf for a digital displacement facility to operate on Channel 10 at Barstow, California. That application was granted on September 7, 2010. However, for the reasons stated below, that grant was made in error and will be rescinded.

The subject application causes predicted interference to the application (BDISDVL-20090630AHL) for a displacement facility to operate on Channel 10 at Banning California, filed on behalf of Venture Technologies Group, LLC (VTG), licensee of KRPE-LP, Banning, California. That application was cut-off on June 30, 2009. Accordingly, the pendency of the VTG application renders the intervening grant of your application an inadvertent error.

Accordingly, for these reasons, the grant of the application (BDISDVL-20090930AOB) for displacement relief for Station K28IE, Barstow, California, IS **HEREBY RESCINDED**.

Sincerely,

Hossein Hashemzadeh
Associate Chief, Video Division
