In re: Low Power Television Application of:
Broadcast Group LTD.
Channel 7, Calexico, CA.
File number BMPTVL-20100525ACK
Facility Id No.:59115

Dear Applicant:

We are currently processing your above-referenced application. Our preliminary engineering review reveals that your proposed facility antenna tower requires registration with the FAA. We acknowledge based on your submission of exhibit appendix 2 your filing with the Federal Aviation Administration the application of "Notice of Proposed Construction or Alteration – Off Airport form" which shows the status of accepted by the FAA on March 31, 2010.

We realize that action and response of the tower registration application can take a considerable amount of time; therefore, with the 3 months that the FAA has already had to evaluate your registration application, you are hereby given the opportunity to file a minor amendment to resolve the specified antenna tower registration by September 9, 2010. Amendments must be filed electronically. If not so amended, your application will be considered incomplete and subsequently dismissed.

Sincerely

Hossein Hashemzadeh
Associate Chief
Video Division
