In re: Low Power Television Application of:  
Mark C. Allen  
Channel 10, Los Angeles, CA.  
File no.: BDISDVL-20100420AAA  
Facility Id No.: 130176

Dear Applicant:

On September 23, 2010, the licensee as addressed above was sent a 30 day deficiency letter outlining the following interference problem:

Our preliminary engineering review reveals that your proposed facility does not comply with the Commission's interference rules. Specifically, the proposal is predicted to cause interference to the following facilities:

1. KRPE-LP, Banning, CA. – BDISDVL-20090630AHL

You were given the opportunity to file a minor amendment to resolve the specified interference problem within (30) days from the date of that letter. Amendments must be filed electronically. If not so amended, your application will be considered incomplete and subsequently dismissed.

Our records show that an amendment was filed to the above referenced application on September 23, 2010.

Our records also show that a second digital displacement application was filed September 29, 2010, file number BDISDTL-20100929ADX. You can not have two displacement applications pending at the same time. Furthermore, the displacement application filed September 29, 2010, is considered to supersede the above referenced April 20, 2010, displacement application.

As a result of the filing of the second displacement application, the above referenced amendment filed to amend displacement application BDISDVL-20100420AAA on September 23, 2010, IS DENIED and the displacement application BDISDVL-20100420AAA IS HEREBY DISMISSED.

Sincerely

Hossein Hashemzadeh  
Associate Chief  
Video Division
