In re: Low Power Television Application of:  
Venture Technologies Group, LLC  
Channel 10, Banning, CA.  
File no.: BDISDVL-20090630AHL  
Facility Id No.: 129651

Dear Applicant:

The licensee as addressed above was sent a 30 day deficiency letter on September 23, 2010, outlining the following interference issues:

Our preliminary engineering review reveals that your proposed facility does not comply with the Commission's interference rules. Specifically, the proposal is predicted to cause interference to the following facilities:

1. KZSW-LD, Riverside, CA. – BDCCDVL-20070517ADV
2. KGTV, San Diego, CA. – BLCDDT-20090410ANQ

You were given the opportunity to file a minor amendment to resolve these specified interference problems within (30) days from the date of that letter. Amendments must be filed electronically. If not so amended, your application will be considered incomplete and subsequently dismissed.

Our records show that no amendment has been filed as of October 28, 2010, to resolve the above referenced interference problems. Our current interference study shows the same interference as listed above; therefore, the above referenced displacement application is considered incomplete and IS HEREBY DISMISSED.

Sincerely

Hossein Hashemzadeh  
Associate Chief  
Video Division  
Media Bureau
