In re: New(FM), Elysburg, PA  
Facility ID# 174767  
Four Rivers Community  
Broadcasting Corporation  
BNPED-20071018AWX

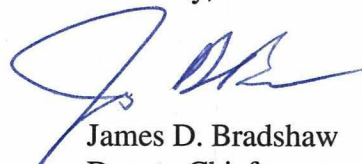

Dear Applicant:

This letter is in reference to the above-captioned application for a new non-commercial educational FM station to serve Elysburg, Pennsylvania.

An engineering study of the proposed directional antenna reveals that it is in violation of 47 C.F.R. § 73.316. Specifically, between the azimuths of 190° T and 210° T, the proposed radiation pattern varies by as much as 6.50 dB per 10 degrees (190-200 degrees) and 2.99 dB per 10 degrees (200-210 degrees). It is necessary to note that these azimuths are in the direction of a short-spaced station and a directional antenna is necessary to prevent any prohibited overlap. Pursuant to 47 C.F.R. § 73.316(c)(2), directional antennas used to protect short-spaced stations that have a radiation pattern which varies more than 2 dB per 10 degrees of azimuth will not be authorized.

In light of the above, Application BNPED-20071018AWX is unacceptable for filing pursuant to 47 C.F.R. § 73.3566(a) and is HEREBY DISMISSED. These actions are taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

James D. Bradshaw  
Deputy Chief
