Dear Applicant:

This concerns your above-referenced applications to extend the digital construction permits for K25JL-D, K27JD-D, K29HT-D, Ridgecrest, etc., California, and K31JM-D, China Lake, etc., California. In your applications, you claim that you were unable to complete construction of the stations' digital facilities due to "financial hardship." In order to qualify for an extension based upon financial hardship, an applicant must submit a showing that includes: (1) an itemized estimate of the cost of meeting the build-out requirements; (2) a detailed statement explaining why its financial condition precludes such an expenditure; (3) a detailed accounting of the applicant's good faith efforts to meet the deadline, including its good faith efforts to obtain the requisite financing and an explanation why those efforts were unsuccessful; and (4) an indication when the applicant reasonably expects to complete construction. *See Review of the Commission's Rules and Policies Affecting the Conversion to Digital Television, Memorandum Opinion and Order*, 16 FCC Rcd 20594, 20610-20612 (2001). Your applications failed to include an itemized construction estimate and a date when you expect to complete construction. Despite being given an opportunity to amend, the missing information was not supplied, and your applications remain incomplete.

For the above-referenced reasons, the applications for extension of digital construction permit (File No. BEP-20100607AFD, AFE, AFF and AFG) of K25JL-D, K27JD-D and K29HT-D, Ridgecrest, etc., California, and K31JM-D, China Lake, etc., California, ARE DISMISSED.

Sincerely,
