Mr. Doak,

It would be fine for the CP being granted for Acton, CA prior to the completion of the international notification process. I have cc-ed Carole Lutness, SCOPE's Chairperson, here as she was just notified via a phone call previous to this email.

Thanks  
Todd

Mr. Urick:

With respect to the application for a new FM Station to serve Acton, California, BNPED-20071022AOP, Fac ID No. 174673. If your client will accept the following condition being placed on the authorization, the application will be grantable with respect to Mexico:

Condition:

This application is being granted prior to the completion of the international notification process. Therefore, any construction of and operation with the facilities specified herein is at applicant's own risk and subject to modification, suspension or termination without right to hearing, if objected to by the Comisión Federal de Telecomunicaciones (COFETEL) in Mexico or if found by the Commission or the COFETEL to be necessary in order to conform to the 1992 USA-Mexico FM Broadcasting Agreement. This condition will be removed if formal acceptance of the facilities granted herein is received from COFETEL.

Thanks
